

This scooter is to be assembled by an adult

In-line Scooter

FRAME

- 1 Check that the locking lever is released.
- 2 Open out the scooter by swinging the steering column away from the footplate.
- 3 When the scooter is fully open, slide the steering head away from the locking assembly.
- 4 Push the locking lever down to secure.

HANDLEBAR EXTENSION TUBE

- 1 Release the locking lever.
- 2 Push in location nipple and slide the tube up or down until it locates into the appropriate height position hole.
- 3 Push the locking lever forward.

SAFETY ADVICE

This is a two wheel self propelled scooter designed for a single rider only.

Not for children with a body weight of more than 50kg.

It is not intended or equipped for road use, off road use, racing, jumping, stunt riding or use with any motorised device.

NOTE:

It should never be ridden by more than one person at a time. Never ride at night, obey all traffic and pedestrian regulations, and give right of way to pedestrians.

Care should be taken when riding on wet pavements as braking action and wheel traction may be reduced.

Never leave your scooter unlocked and unattended.

FOR YOUR CHILD'S SAFETY

Recheck that all screws, nuts and bolts are firmly tightened.

Make sure that your child is capable of riding this scooter.

Do not allow your child to ride unsupervised.

SCOPE AND LIMITED WARRANTY

This warranty does not cover damage or loss from accidents, normal wear, improper assembly or adjustment, jumping, stunt riding, racing or competition, abuse, neglect or when used with any motorised device.

HANDLEBAR

- 1 Insert 'D' shaped handlebar tube into the head of the steering column extension tube.
- 2 Align the holes in the handlebar tube and the steering column.
- 3 Insert the locating pin through the holes and secure with the screw.

ASSEMBLED BIKE

Please check all screws and fittings are secure before giving to your child.

Ensure all locking devices are engaged.

The toy shall be used with cautions, since it requires great skill, so as to avoid falls or collisions causing injury to the user and third parties.

Protective equipment should be worn.

MV recommends the use of protective pads and helmet when using this product.

A GUIDE TO SAFE CYCLING & SCOOTERING

- 1 We recommend this scooter is for pavement use only.
- 2 Do not ride at night. Visibility is often limited at dawn and dusk.
- 3 Always give pedestrians right-of-way, and don't ride too close to them. Never park your bicycle or scooter where it can cause a nuisance.
- 4 Avoid hazards that may cause you to lose control of you bicycle or scooter such as pot holes, uneven pavements and manhole covers.
- 5 Leave plenty of room when passing parked vehicles and watch out for doors being opened in your path.
- 6 Remember that braking distance should be increased in wet weather, and regular checks of brakes, steering and lighting should be made.
- 7 Never carry passengers on your bicycle or scooter. Never carry packages in your hands while riding, or fix anything to your bicycle or scooter that could obstruct your visibility or control.
- 8 Don't wear anything that restricts your hearing.
- 9 Always ride with both hands on the handlebars.
- 10 Don't wear very loose clothing, which could hang down and become caught in the wheels. Wear cuff bands or trouser clips to keep your trousers from getting caught in the chainwheel.
- 11 We recommend that light-coloured or fluorescent clothing be worn which helps others to see you in daylight and poor light.
- 12 Always wear proper safety equipment. We recommend a helmet, long-sleeved shirt, long trousers, shoes, elbow pads and knee pads. Gloves and eye protection also make good sense. Cover your handlebars, stem and top tube with safety pads for extra protection.
- 13 Don't ride your bicycle if the chain cover is not attached

Please refer to the Highway Code regarding rules for cyclists
